

# KANNAN N

## UX/UI DESIGNER

### Profile

UI/UX Designer passionate about creating seamless and engaging user experiences. Skilled in wireframing, prototyping, and user-centered design principles, I craft intuitive interfaces that enhance usability and deliver impactful digital solutions. Always striving to innovate and elevate design through user-focused creativity. Creative and Graphic Designer captivate and communicate effectively.

### PROJECTS

#### Tweets:

Working on designing an Instagram-like app in Figma, focusing on features like photo viewing, notifications, and user profiles. Excited to bring this concept to life with clean, intuitive UI/UX design!"

#### FoodGo:

Designing a user-friendly UI/UX for a food delivery app, FoodGo, in Figma. Focusing on creating an intuitive and seamless interface to enhance the overall user experience and make ordering food easy and enjoyable!

#### The Triumph

Designing a user-friendly UI/UX for Triumph, a bike rental and purchase platform, in Figma. The interface will offer an intuitive experience for users to easily browse and rent or purchase all types of bikes, ensuring smooth navigation and seamless interaction.

#### Monito:

Creating a user-friendly UI/UX for a dog service website, designed to cater to all dog owners. The interface will provide an intuitive experience for users to easily navigate through services information.

#### Harvest:

Designing a user-friendly UI/UX for Harvest, an online food ordering website in Figma. The interface will provide a seamless and intuitive experience for users to browse, order, and enjoy fresh food with ease.

#### The Tiro:

Designing a user-friendly UI/UX for Tiro, an online shopping platform, with seamless navigation and smart animations. The goal is to create an intuitive and engaging shopping experience that enhances user satisfaction.
